Quote/ Ref # \_\_\_\_\_

The **ALP-23** is an architectural-grade LED profile designed for IP67 in-ground applications like pavements, sidewalks and driveways. It comes with a polycarbonate frosted diffuser and certified for all types of weather, harsh climate and conditions. The frosted lens diffuser is UV resistant and durable enough for in-ground applications. Installing the ALP-23 requires silicone to achieve an IP67 rating.

### SPECIFICATIONS

|                   |                            |
|-------------------|----------------------------|
| TYPE              | In-Ground (Recessed) Mount |
| AVAILABLE LENGTHS | 48" / 98"                  |
| FINISH OPTIONS    | Silver                     |
| LENS OPTIONS      | Frosted                    |
| MAX LOAD          | 5,000 lbs.                 |
| CHANNEL           | ALP23                      |
| LENS              | ALP23-LN (included)        |
| END CAP           | ALP23-EC (included)        |

### FEATURES

- Customizable
- Compatible with LED strips up to 14mm (0.55 in) wide
- Suitable for in-ground applications
- Durable, anodized aluminum
- Protects LED systems from dust and other elements
- Dissipates heat from LED, prolonging its lifetime

\*LED strips sold separately
